Postdoctoral Researcher and Foreign Professor Positions

Department of Biotechnology, Yeungnam University, Gyeongsan, Korea

Applications are invited for a Postdoctoral Researcher and a Foreign Professor position to undertake innovative research in the Department of Biotechnology at the Yeungnam University, Republic of Korea (<http://www.yu.ac.kr/en/main/index.php>). The applicant should hold a Ph.D in biology with good international publications. Experience in some or all of the following disciplines are desirable: *plant molecular biology or metabolic profiling or screening for bioactive compounds or biochemistry*. Good oral and written communication skills and ability to work independently and as part of a team are required. The successful candidates can participate in one of projects below. 1) Understanding of sound wave perception by Arabidopsis in molecular aspects; 2) Isolation and characterization of bioactive compounds from fungal endophytes of medicinal plants. Further information about our research and recent publications can be found at http://bt.yu.ac.kr/bt/sub03_a_02.htm . Salary will be within the range USD 20,000 ~ 30,000 per year depending on qualifications, experience and performance. For Foreign Professor position, housing and incentive for publication will be provided additionally. For further details about the project and for discussions contact Dr. Hanhong Bae (hanhongbae@ynu.ac.kr) with CV and cover letter. The application closing date for Foreign Professor will be on 25th April, 2013 and for Postdoctoral Position will be on 25th May, 2013. The position will be available from September 1, 2013.
