

International PhD Program in the BIOLOGICAL SCIENCES

Max-Planck-Institute for Developmental Biology and
Friedrich Miescher Laboratory
Tuebingen, Germany

The International PhD Program in the Biological Sciences provides outstanding interdisciplinary training in cutting-edge biological research in the fields of

- **Structural Biology**
- **Plant & Animal Development**
- **Molecular & Cellular Biology/ Biochemistry**
- **Developmental & Quantitative Genetics**
- **Evolutionary Biology & Ecological Genetics**
- **Bioinformatics**

PhD students receive 3-4 years of personal training complemented by selected courses and seminars. All positions are fully funded. Degrees are awarded through the University of Tuebingen.

Highly qualified students receiving their MSc or Diplom degrees by July 2012 are invited to apply for Spring 2012 selection.

For further details and access to the online application system please visit
<http://phd.eb.tuebingen.mpg.de>.

Application deadline: November 15, 2011
