UNIVERSITY OF MICHIGAN FACULTY POSITIONS IN MOLECULAR, CELLULAR, AND DEVELOPMENTAL BIOLOGY

The Department of Molecular, Cellular, and Developmental Biology in the College of Literature, Science and the Arts at the University of Michigan solicits applications for faculty positions at the assistant professor level, but appointment at a more senior level is possible for applicants with suitable experience. The faculty position will be tenured or tenure track with a university year appointment starting September 1, 2013 or January 1, 2014. Successful candidates will be expected to establish a vigorous, extramurally funded research program and to be involved in instruction of both undergraduate and graduate students.

We welcome applications from outstanding biologists in any area of research within the scope of the department, which includes genetic, physiological, and biochemical studies of model organisms (plants, animals, and microbes). We particularly encourage applicants studying genomics/biological networks, molecular/cellular neuroscience, plant molecular biology, or structural biology. For further information about Department research areas, please visit www.mcdb.lsa.umich.edu.

All applications must be submitted on-line. You will be asked to upload the following materials: A cover letter, a *curriculum vitae*, a brief summary of recent research accomplishments and statement of future research plans, a statement of teaching interests and philosophy, and evidence of teaching excellence for those who have teaching experience. Candidates for appointment as an assistant professor should provide names and contact information for at least three references, as instructed in the on-line application form. To ensure full consideration, all materials should be received by October 8, 2012.

Women and underrepresented minorities are encouraged to apply. The University of Michigan is supportive of the needs of dual career couples and is an equal opportunity/affirmative action employer.
