

Postdoctoral position in Czech Republic at the University of South Bohemia.

Applicants are invited for a 2-3 year EU funded postdoctoral position starting October or November 2012 to work on leaf-atmosphere interactions (stomata development and function, mesophyll conductance, cuticle, leaf hydraulic architecture). For detail see <http://kebr.prf.jcu.cz/download/postdoc.pdf> or contact Dr. Jiri Santrucek (jsan@umbr.cas.cz) for further information.
