

## **Graduate Research Assistantship positions:**

Two Graduate Research assistant positions are available to pursue Doctoral studies in my lab in the Department of plant and soil science, Texas Tech University, Lubbock, TX, USA. The graduate research assistant will work on cell wall biology/biochemistry using various molecular and biochemical techniques. Qualifications: The successful candidate will have a B.S and M.S. in biology, agriculture, biotechnology or related discipline. Previous experience in plant molecular biology/biochemistry/cell wall biology is desirable but not essential.

Application procedure: Description of application procedure and requirements can be found at (<http://www.depts.ttu.edu/gradschool/admissions/international/index.php>). Information about the Department of plant and soil science and application procedure can be found at (<http://www.pssc.ttu.edu/ProgramPages/gradapply.php>).

Interested candidate may directly contact Venugopal Mendu ([venugopal.mendu@ttu.edu](mailto:venugopal.mendu@ttu.edu)) (<http://www.pssc.ttu.edu/faculty.php> /<http://www.pssc.ttu.edu/fbri/fbrifaculty.php>).
