

Two postdoctoral positions, Matzke lab, Institute of Plant and Microbial Biology, Academia Sinica, Taipei, Taiwan

- Position: 2 postdoctoral positions, to begin January 1, 2013
- Responsibilities: Research projects for the successful applicants include epigenetic gene silencing and RNA-directed DNA methylation, interphase chromosome organization and expression in aneuploids, nuclear membrane proteomics and electrophysiology
- Requirements: Candidates should be skilled in standard molecular biology techniques and in cultivation and genetics of Arabidopsis. Experience in generation and analysis of next-generation sequencing and proteomics data or advanced microscopy techniques are a plus.
- Salary: According to the regulation
- Contact: Marjori Matzke or Antonius Matzke
- Telephone: (+886)2-2787 extension 1135 or 1136
- Email: marjorimatzke@gate.sinica.edu.tw, antoniusmatzke@gate.sinica.edu.tw,
- Documents: To apply, please send a complete CV, names and email addresses of at least 3 references, and a brief statement of research accomplishments and future goals. Applications should be submitted by email to marjorimatzke@gate.sinica.edu.tw or antoniusmatzke@gatesinica.edu.tw. Review of applications will begin immediately.
